How to Revise...

St Mark’s West Essex School

Key Stage 3
Revision Tips Booklet

‘Success depends on the second letter’
INTRODUCTION

Welcome to revision guide for Key Stage Three pupils.

Unfortunately, there is no easy way to pass tests, but we can give you lots of tips on how to use your study time more effectively. This guide has been written to remind pupils about how to revise and how to learn.

Although this booklet contains superb advice, great tips and fantastic study skills, the guide isn’t as important as the person reading it – YOU! It is you who have to put them into practice and apply them to your work. If you do, we’re sure that you will improve your performance and your study skills. But to get better at something, you have to practise!

So, over to you – happy studying and good luck!
Revision means “to look at again”. You need to look at things again as part of learning as well as in preparation for exams. But we need **active** ways to do this “looking again”.

Revision gives time for reflection and learning. You can start to see the big picture, you can add in more details and examples. You may discover something you still don’t understand and you can ask your teacher about it again.

The idea is to “revise” each major section of your work shortly after you have finished it. For instance, you could draw a Mind Map of each major topic you cover. Keep the Mind Maps because they will be very useful for revising before tests.

**HOT TIP: be active and change the way you think**
How to Revise...

WHY?

1. Revision helps learning
2. Revision increases your achievement in tests
3. Achievement in tests give you wider choices later on
4. Achievement will make everyone proud of you!
5. You will feel great!

HOT TIP: get yourself a vision of success

E.g. know what success looks like – pick a role model or a team you love and THINK what do they do to earn success?

Summer 2016
How to Revise...

WHEN?

Make sure you know when your tests are. Teachers will revise with you and give you advice about how much revision to do, what you should revise and many will give you special notes to help with revising.

Make yourself a revision timetable.

- Fill in leisure, relaxation and family commitments
- Put in some sessions that you can devote to revision
- Share out the available revision sessions between your subjects
- Allow extra sessions if you know some subjects will take longer than others
- Vary the subjects – don’t do all your Maths revision on day one!
- Here’s an example for one weekend:

<table>
<thead>
<tr>
<th></th>
<th>Morning</th>
<th>Morning</th>
<th>Afternoon</th>
<th>Evening</th>
</tr>
</thead>
<tbody>
<tr>
<td>Saturday</td>
<td>Football</td>
<td>Maths; geography</td>
<td>Science; RE</td>
<td>Family Fun Night!</td>
</tr>
<tr>
<td>Sunday</td>
<td>English; tech</td>
<td>Lunch at gran’s</td>
<td>Still at gran’s</td>
<td>French; history</td>
</tr>
</tbody>
</table>

The ideal length to revise one topic is **25 minutes** then have a 5 minute break before you switch to another topic. Your revision will look like this:

CYCLE 1: 25 +5 + 25 + 5 + 25 = Take 30 minutes

CYCLE 2: 25 +5 + 25 + 5 + 25 = Well Done 😊

You remember more at the beginning and the end of sessions, so create more beginnings and ends by stopping for a brief break or doing a brain gym exercise.

HOT TIP: Little and often = less stress and more success!

Summer 2016
How to Revise...

WHERE?

The ideal study room is light, airy, quiet, with shelves and a desk. Some people are lucky enough to have this and enjoy working in it. Don’t worry if you haven’t got this. You can still try to get some of the elements.

It’s a good idea to put up posters, lists and post-it notes in other places in the house.

Some pupils find they revise well with friends and it is a good idea to do this sometimes as a bit of variety and fun.

Ban the mobile phones! They are too distracting. Leave them in another room and you can check them briefly, if you must, on your brief breaks.

Lots of pupils find that some background music helps the revision process. Classical music such as Mozart can help to stimulate your brain waves. Avoid music with lyrics as you are likely to concentrate on these rather than your work!
How to Revise...

HOW?

There are three easy steps to doing revision well:

* Change
* Challenge
* Treats

The first step is to try **change**. By changing what is in our exercise books or textbooks into a different form, we kick start our brains into action – we start thinking about new ways of presenting and digesting the information and start learning.

Ways to change things:

- Make diagrams
- Labelled drawings
- Time-lines (for history)
- Mind maps
- Charts and flowcharts (for processes)
- Duolingo App (great for languages & free!)
- Podcasts – available via BBC Bitesize
- Outline cards
- Mnemonics
- Use colours and highlighters

**HOT TIP:** Flick through outline cards before the test
We work best when we are faced with a **challenge**.

Challenge yourself to really sort out a topic that you have found difficult.

- Will taking a new approach and turning it into a chart, diagram or Mind Map help?

- Get someone to test you after you have learned something new.

- We learn extremely well when we have to teach someone else – why not try teaching one of your parents, a brother or sister, your grandparents or even your friends?

- Get them to ask you questions about what you have just taught them – can you answer their questions?

**HOT TIP:** Believe in yourself – you **CAN** do it!
How to Revise...

Don’t forget to allow yourself some **treats**. Break up your revision sessions and plan some treats to look forward to: fruit, chocolate, a drink, ten minutes in the garden, glancing at a magazine, going for a walk...whatever will motivate you.

Remember, breaking up your revision gives you more stops and starts and more stops and starts increase your learning.

Relaxation is important to help you stop feeling the pressure of tests and getting stressed. Find a simple technique that works for you and practise using it when you are stressed or anxious.

Have you tried:

- A warm bath?
- Visualising yourself passing the test?
- Brain gym exercises?
- Stroking a pet?
- Deep breathing?
- Meditating?
- Praying?
- Going for a walk?
- Asking someone to give you a head massage?
- Yoga?
- Dancing to your favourite tunes?
- Watching funny movies or having a laugh with friends/family?
- Making lists of all the things you want to achieve?
- Making lists of everything **you have achieved**?
HOT TIP: Feed your brain! Fresh fruit, water, fish and vegetables give you brain power!
